

# Hamail Ashraf

## Software Engineer

### Professional Summary

A Computer Engineering graduate with experience in building scalable, user-friendly web applications using React.js, Next.js, Django, and MySQL. Skilled in modern UI frameworks (TailwindCSS, Bootstrap) with a strong foundation in full-stack development. Currently working as a Software Engineer at Nayatel, contributing to the company's Cloud Website (jQuery/Django) and Cloud Portal (Next.js/Django). Passionate about clean, responsive design and leveraging emerging technologies to deliver impactful solution.

### Experiences

#### Nayatel (Pvt) Ltd - Software Engineer

October 2024 – Present

- Developed and maintained Nayatel's Cloud Portal using Next.js and Django, improving user experience and performance.
- Enhanced the Nayatel Cloud Website built with jQuery and Django, focusing on responsive design and user interaction.
- Collaborated with cross-functional teams to deploy scalable features and ensure platform reliability.

#### TPL Maps (Pvt) Ltd - Software Development Intern

June 2024 – August 2024

- Worked on web applications integrating mapping APIs with React.js and backend services.
- Assisted in debugging and optimizing front-end components for better performance.

#### Bytewise Limited - Software Development Intern

March 2023 – June 2023

- Contributed to collaborative projects in an agile team environment.
- Implemented front-end features using React.js.
